CONGRATULATIONS!

Scott Hawke, ES&H Radiation Protection Group, is the winner of the \$50 Amazon.com gift certificate donated by Information Resources staff. Everyone who submitted a Library survey was eligible to win. Scott received his prize from Sara Tompson, library administrator.

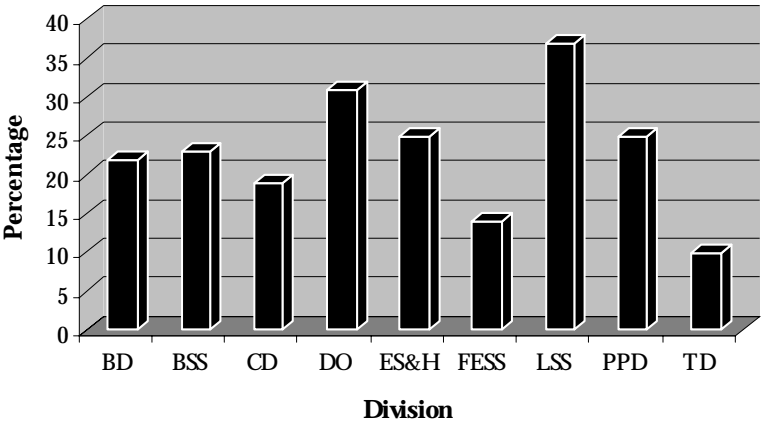

On August 17, David Carlson, deputy head of Business Services Section and member of the Library Advisory Committee, drew the winning ticket from 430 entries. To ensure that everything was on the up and up, David Gassman, chief legal counsel, agreed to supervise the proceedings.

MANY THANKS

The staff of the Information Resources Department extend their thanks to everyone who completed and returned the Library survey. Over 20% of all Laboratory employees responded to the survey questions (see figure below). The information gathered will help us make better decisions regarding collection development and future services offered.

We are currently in the process of analyzing the data collected and will share what we have learned in upcoming issues of *Resources*.

WHAT'S NEW?

The Fermilab Library's web pages are designed to be a comprehensive source of information for you. We are constantly evaluating web-based information and adding new links to our site. Our "What's New this Month on the Fermilab Library Web Site" page at <http://www-lib.fnal.gov/library/whatsnew.html> will point you to a list of these new links. Please take a look. Also, be sure to let us know if you find web resources you think would be appropriate for our site. Send ideas to Beth Anderson, beth@fnal.gov.

HAVE YOU RENEWED YOUR MAGAZINE SUBSCRIPTIONS?

The Fermilab Library coordinates periodical subscriptions for departments and individuals through a subscription agent. This procedure streamlines the renewals process, which results in substantial savings on processing costs.

A few weeks ago you received in the mail a list of your subscriptions from last year. You were asked to review your list and return it to the Library by Friday, September 4, 1998. If you have forgotten to do this, please do it today. All subscription lists must be returned in order to ensure continued service. If you do not return your list, the subscription(s) will be cancelled.

Once your subscription is placed, you may disregard any magazine renewal notices you receive from the publisher.

If you have questions regarding your subscriptions or need assistance, please contact Lee Robbins at x6013 or stop by the Library. If you do not currently subscribe to a magazine or journal, but wish to enter a new subscription, please obtain budget code approval from your supervisor and contact Lee.

DOCUMENT CONVERSION PROJECT UNDERWAY

The Information Resources Department is currently carrying out a legacy document conversion project. All Fermilab preprints, technical memos and physics notes that are not currently held in electronic format are being scanned and will be available on the web and fully searchable and accessible from the Fermilab Library online catalog.

We are having some of this work done by an outside vendor and we are doing some of it in-house. We have learned a good deal about document conversion through this process and will be happy to assist others who may be contemplating a similar project. A technical memo outlining our project is available on the web at <http://fnalpubs.fnal.gov/archive/1998/tm/TM-2056.html>. The report will be published in the winter issue of *Illinois Libraries*, Volume 8, Number 1.

IMPORTANT NOTICE TO AUTHORS

The URA prime contract now requires all Fermilab employees to add the following statement to the title page of any scientific or technical report that is submitted for journal publication or inclusion in a conference proceedings or any other similar means of distribution.

Copyright Notice: This manuscript has been authored by Universities Research Association, Inc. under contract No. DE-AC02-76CH03000 with the U.S. Department of Energy. The United States Government retains and the publisher, by accepting the article for publication, acknowledges that the United States Government retains a nonexclusive, paid-up, irrevocable, worldwide license to publish or reproduce the published form of this manuscript, or allow others to do so, for United States Government purposes.

This notice does not replace the DOE credit line, distribution notice or disclaimer, which also must appear on the title page of the report. The credit line, disclaimer and distribution notice should appear as follows:

Credit line: Work Supported by the U.S. Department of Energy under contract No. DE-AC02-76CH03000.

Distribution: Approved for public release; further dissemination unlimited.

Disclaimer: This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, expressed or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise, does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.

The Publications Office will add the above notices to all preprinted reports and to all executed copyright release forms. Authors are asked to add the notices to reports sent directly to publishers, conference editors and e-print servers. Notices can be copied from the web at <http://fnalpubs.fnal.gov/techpubs/disclaimer.html>. If you have any questions, please contact Cindy Crego at x3278 or David Gassman at x3572.
